

Register for the MDIS: Sept. 13

Registration for the Third Annual Medical-dental Integration (MDI) Symposium is now open. **The free virtual symposium, which is co-sponsored by USABLE Life, is scheduled for Sept. 13, 1–5 p.m. CDT. This year's theme is Interoperability and Clinical Information Sharing to Improve Health Care Outcomes.**

There is no cost to attend this continuing education program.

The keynote speaker will be Col. Thomas J. Cantilina, M.D., United States Air Force. The colonel serves as the Military Health System's (MHS) chief health informatics officer and deputy MHS electronic health record (EHR) functional champion at the Defense Health Agency. He'll discuss his work integrating the needs of clinicians, health care operators, and technologists to increase digital health solution adoption, which includes implementing a new integrated EHR for all active and retired military, MHS GENESIS.

Sol Brotman, D.D.S., M.A.G.D., vice president of national clinical operations, USABLE Life, will discuss the future of clinical and electronic MDI. He'll also co-present a discussion about MDI data sharing with Shuning Li, Ph.D., M.S., assistant research scientist, Indiana University School of Dentistry.

A question-and-answer session will follow. Please refer to the event agenda for more details.

You and your clinical and administrative staff can earn four CEUs through the [American Academy of Dental Hygiene](#) at no cost.

Sept. 13, 2023 | 1–5 p.m. CDT

**Cost: FREE
CEU credit: 4 hours**
