

# DENTAL BULLETIN FALL 2016

## **Medicare Part D prescriber enrollment requirement**

The Centers for Medicare & Medicaid Services (CMS) is providing guidance to Part D sponsors on the requirement for all providers writing prescriptions for Part D drugs to complete the application for the Part D prescriber enrollment. The requirement will be enforced beginning February 1, 2017.

#### Why should a dentist enroll in Medicare to prescribe Part D drugs?

- The process can be completed online and is free of charge.
- It prevents patients' prescription drug claims from being denied by their Part D plan.
- By enrolling in Medicare, dentists assist in fighting fraud in the Medicare Part D program.
- Approximately 100,000 dentists currently write prescriptions for Medicare Part D beneficiaries.
- Unenrolled dentists' Medicare patients choose to find a dentist who is enrolled in Medicare so their prescriptions are coverable by the Part D program.

#### What if I do not wish to enroll or opt out of Medicare?

- If opting out, the beneficiary will be required to pay out-of-pocket. The beneficiary nor the provider will be reimbursed by Medicare.
- If opting out, you must submit an affidavit to Medicare.
- Unenrolled dentists who contract with managed care plans to provide dental services to Medicare beneficiaries cannot opt out.

This enrollment information and other guidance on the Part D Prescriber Enrollment Requirement can be found at <u>cms.gov/</u> <u>Medicare/Provider-Enrollment-and-</u> <u>Certification/MedicareProviderSupEnroll/Part-</u> <u>D-Prescriber-Enrollment-Dentists.html</u>.

DENTAL BULLETIN • FALL 2016

# Federal Employee Program dental benefit change

On January 1, 2016, the Federal Employee Program (FEP) removed the following from the Standard Option dental routine care services.

- Tests and laboratory exams
- Space maintenance
- Various restoration services
- Extraction with associated anesthesia

These services are no longer covered under routine Standard Option dental benefits. However; they are still eligible for benefits associated with accidental dental injury treatment, or for restoring the mouth to a pre-cancerous state with applicable regular benefits.

D0460 D1510 D1515 D1520 D1525 D1550 D2140 D2150 D2161 D2335 D2160 D2330 D2331 D2391 D2394 D2392 D2393 D2510 D2520 D2530 D2610 D2620 D2630 D2650 D2651 D2652 D2951 D7140 D7210 D7250

ADA codes affected by the change:

# Federal Employee Program dental claim form effective January 1, 2017

Effective January 1, 2017, Arkansas Blue Cross and Blue Shield will begin using an optical character recognition process to convert all paper dental claims into an electronic 837D HIPAA transaction. In order to facilitate this process, the dental claims submitted to the Federal Employee Program (FEP) will need to be submitted on the 2012 American Dental Association (ADA) claim form. Claims submitted on any other dental claim form after January 1, 2017, will be returned. More information on how to obtain the new dental claim form can be found at the ADA website at www.ada.org.

# ICD-10 assistance

An ICD-10 website is available to assist you with the new requirements of the diagnosis codes on dental claim forms. The web address is <u>www.icdassist.com/</u>.

#### **Dental claim forms require ICD-10 diagnosis codes** Claims related to accidental injury, restoring the mouth to a precancerous state, or oral surgery

Claims related to accidental injury, restoring the mouth to a precancerous state, or oral surgery that are submitted to the Arkansas Blue Cross and Blue Shield and its family of companies must contain the ICD-10 primary diagnosis code describing the reason for treatment in box 34a using

## Add a date of service to a predetermination

A new self-service tool is available for dental procedures that require a predetermination of benefits before treatment is performed. You can enter the date of service online by selecting from two options.

 Option 1: Use the new link added to the provider portal landing page at <u>www.</u> <u>mydentalcoverage.com/dentists.shtml</u>. Enter the claim number in the fillable box and select "Search". The predetermination number can be found on the notification the office received in the mail. All available lines for date entry will show up. When finished entering the dates, select "Review & Submit". Upon final review, select "Submit" to enter the claim.

# **Compliance on prescription drugs**

Effective October 1, 2016, the network credentialing standards applicable to all individual network participants and applicants for the Preferred Payment Plan, Medi-Pak® Advantage PFFS, Medi-Pak® Advantage LPPO, Medi-Pak® Advantage HMO, Arkansas' FirstSource® PPO, True Blue PPO, and Health Advantage HMO Networks will be updated in section C, Drug Enforcement Agency (DEA) to effect the following significant changes in the DEA certificate standard:

- Recognition that primary care physicians (PCPs), and advanced practice registered nurses and physician's assistants who collaborate with PCPs, but who do not prescribe or intend to prescribe controlled substances no longer have to obtain a DEA certificate as a condition of network credentialing and participation.
- Clarification that any practitioner who does prescribe or intends to prescribe controlled substances must maintain a DEA certificate in good standing as a condition of network credentialing and participation.
- A new requirement that practitioners who hold a DEA certificate must enroll in the Arkansas Prescription Monitoring Program (AR PMP).
- New provisions detailing the ineligibility period applicable to any practitioner whose DEA certificate is subject to a disciplinary action.

Special Note on the Prescription Monitoring Program procedures and extended compliance deadline: Registration for the Prescription Monitoring Program is free and takes about five minutes. The registration page can be found at arkansaspmp.com/practitioner/-pharmacist/.

Current participating providers will have until April 1, 2017 to complete enrollment in the AR PMP in order to be in compliance with the network credentialing standards. Noncompliance with the revised DEA Certificate Standard could prompt the networks to take additional action, up to and including network termination.

The following is the revised language for the DEA Certificate Standard, effective October 1, 2016:

### DEA and Arkansas Prescription Monitoring Program

All practitioners are responsible for complying with all applicable state and federal laws and regulations related to the prescribing and administration of medications. This includes a network requirement (consistent with applicable law) that applicants or current network participants who prescribe or intend to prescribe controlled medications must hold an active Drug Enforcement Agency certificate in good standing. In addition, applicants and current network participating practitioners who hold an active DEA certificate must be registered with the Arkansas Prescription Monitoring Program as a condition of network participation.

A practitioner whose DEA certificate is subject to any action (as hereinafter defined) shall lose eligibility to participate in the networks for the longer of (a) 365 days or (b) the date that the networks determine, in their sole discretion, that the conditions leading to any action have been appropriately alleviated or redressed by the practitioner and any applicable disciplinary board oversight or monitoring program.

For purposes of this standard, "action" means any voluntary or involuntary surrender, restriction, limitation, suspension or revocation of a DEA certificate, including but not limited to any arrangement whereby the practitioner agrees to a surrender, restriction, limitation, suspension or revocation of the DEA certificate, or any

#### Compliance on prescription drugs continued from page 6

arrangement whereby practitioner's use of the DEA certificate is limited or restricted (voluntarily or involuntarily) in terms of the scope or classifications of medications that may be prescribed, the location(s) or conditions under which the DEA certificate may be utilized to legally prescribe medications, or the length of time that the DEA certificate may be utilized without further review or approval from any government agency or disciplinary board or program.

Any practitioner whose DEA certificate is subject to any action must give written notice of the same to the networks not later than three business days following the action, and failure to promptly provide such notice shall, in itself, constitute separate grounds upon which network participation may be denied or terminated.

The preceding notwithstanding, the networks recognize one exception under which a practitioner who has been subject to an action

may, in the judgment of the networks, remain eligible for network participation and not be excluded from the networks as provided in subpart (b), above: if the practitioner is actively enrolled in and fully compliant with all terms of a practitioner health/rehabilitation program that is officially sanctioned and overseen by the practitioner's applicable disciplinary board or agency and such practitioner is (i) otherwise in good standing with the practitioner's applicable disciplinary board or agency; and (ii) otherwise in good standing with all regulatory authorities and state and federal agencies and programs, including but not limited to Medicaid and Medicare; and (iii) otherwise in good standing with the networks and in compliance with all other terms and conditions of the practitioner's network participation agreement and network terms and conditions; and (iv) practicing with competence and quality and in a manner that does not pose a risk of harm to the networks' members, as determined in the networks' sole discretion.

A Change of Data Form is required to update your address with Arkansas Blue Cross and Blue Shield when you move to another location or clinic to accurately refer members to you and ensure payments arrive in a timely fashion.

Please visit <u>arkansasbluecross.com/provider/forms/aspx</u> to download a Provider Change of Data Form.
