

# Arkansas Blue Cross and Blue Shield Metallic Formulary

## 2026 List of Covered Drugs

**PLEASE READ: THIS DOCUMENT HAS INFORMATION ABOUT THE DRUGS WE COVER IN THIS PLAN.**

Members must use network pharmacies to fill their prescription drugs. Your benefits, drug list, pharmacy network, premium and/or copayments/coinsurance may sometimes change.

## What is the Arkansas Blue Cross and BlueShield Metallic Plans Drug List?

A drug list is a list of covered drugs. Arkansas Blue Cross and Blue Shield works with a team of health care providers to choose drugs that provide quality treatment. Arkansas Blue Cross and Blue Shield covers drugs on our drug list, as long as:

- The drug is medically necessary
- The prescription is filled at an Arkansas Blue Cross and Blue Shield network pharmacy
- Other plan rules are followed

For more information on how to fill your prescriptions, please review your plan document or other plan materials.

## Can the Drug List change?

The drug list may change from time to time as described in the plan document or other plan materials. The enclosed drug list is the most current drug list covered by Arkansas Blue Cross and Blue Shield Metallic Plans. To get updated information about the drugs covered by Arkansas Blue Cross and Blue Shield Metallic Plans, please visit <https://www.arkansasbluecross.com> or call Member Services at 1-800-863-5561

## How do I use the Drug List?

There are two ways to find your drug on the drug list:

### 1. Medical Condition

The drug list starts on page 6. The drugs on this drug list are grouped by the type of medical conditions they are used to treat. For example, drugs used to treat a heart condition are listed under “anticoagulants.”

- If you know what your drug is used for, look for the category name in the list that starts on page 6
- Then look under the category name for your drug

### 2. Alphabetical Listing

If you are not sure what category to look under, look for your drug in the Index that starts on page 131. The Index is an alphabetical list of all the drugs in this document. Both brand-name drugs and generic drugs are in the Index.

- Look in the Index and find your drug
- Next to your drug, see the page number where you can find coverage information
- Turn to the page listed in the Index and find the name of your drug in the first column of the list

For more information about your Arkansas Blue Cross and Blue Shield Metallic Plans prescription drug coverage, please look at your plan document and other plan materials.

If you have questions about Arkansas Blue Cross and Blue Shield Metallic Plans, or this drug list please call Member Services at 1-800-863-5561 or visit <https://www.arkansasbluecross.com>.

## Arkansas Blue Cross and Blue Shield Metallic Drug List

The drug list that starts on page 6 gives information about the drugs covered by Arkansas Blue Cross and Blue Shield Metallic Plans. A generic drug is approved by the FDA as having the same active ingredient as the brand-name drug. Generic drugs usually cost less than brand-name drugs but provide the same quality of treatment. Upon release of a generic drug to the market, the generic drug will **generally** be added to the formulary and the associated brand drug will be removed. However, some generic drugs do not cost less than brand-name drugs and may not be added to your formulary.

The first column of the chart lists the drug name. Brand-name drugs are capitalized (e.g., LIPITOR). Generic drugs are listed in lower-case italics (e.g., *atorvastatin*).

The information in the Requirements/Limits column tells you if Arkansas Blue Cross and Blue Shield Metallic Plans has any special requirements for coverage of your drug. These requirements and limits may include:

- **Prior Authorization:** Arkansas Blue Cross and Blue Shield Metallic Plans needs you (or your doctor) to get prior approval or authorization for certain drugs. This means that you need to get approval from Arkansas Blue Cross and Blue Shield Metallic Plans before you fill your prescriptions. If you don't get approval, Arkansas Blue Cross and Blue Shield Metallic Plans may not cover the drug.
- **Quantity Limits:** For certain drugs, Arkansas Blue Cross and Blue Shield Metallic Plans limits the amount of the drug that it will cover. For example, Arkansas Blue Cross and Blue Shield Metallic Plans provide 28 caplets per prescription for Tamiflu. Arkansas Blue Cross and Blue Shield Metallic Plans also limits the amount of drugs you may receive within a class of drugs. For these classes, only one drug should be taken at a time for safety reasons. This may be in addition to a standard one-month or three-month supply. These classes are as follows:
  - ANAPHYLAXIS TREATMENT AGENTS
  - ANTIANXIETY
  - ANTISEIZURE AGENTS
  - ANTIVIRALS
  - HYPNOTICS
  - MIGRAINE
  - NSAIDS
  - OPIOID ANALGESICS
  - OPIOID PARTIAL AGONISTS

- PROTON PUMP INHIBITORS
- For opioid-naïve members aged 19 or younger, certain drugs within the opioid class are limited to a three-day or less supply.
- **Step Therapy:** Arkansas Blue Cross and Blue Shield Metallic Plans needs you to try certain drugs as the first step to treat your medical condition before covering another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, Arkansas Blue Cross and Blue Shield Metallic Plans may not cover Drug B unless you try Drug A first. If Drug A does not work for you, Arkansas Blue Cross and Blue Shield Metallic Plans will then cover Drug B.

## What if my drug is not on the Drug List?

If your drug is not on this drug list, call Member Services and make sure that your drug is not covered. If you learn that Arkansas Blue Cross and Blue Shield Metallic Plans does not cover your drug, you have two choices:

- Ask Member Services for a list of similar drugs that are covered by Arkansas Blue Cross and Blue Shield Metallic Plans. When you get the list, show it to your doctor and ask him or her to prescribe a similar drug that is covered by Arkansas Blue Cross and Blue Shield Metallic Plans. Similar drugs that are preferred and covered by your plan's formulary may be easier to obtain and lower cost to you than non-preferred drugs.
- Ask Arkansas Blue Cross and Blue Shield Metallic Plans to make an exception and cover your drug. You can ask us to cover your drug even if it is not on our drug list.

## How do I ask for an exception to Arkansas Blue Cross & Blue Shield Drug List?

You can ask Arkansas Blue Cross and Blue Shield to make an exception to our coverage rules. You can ask us to cover your drug even if it is not on our drug list. Certain products are available at \$0 cost share when utilized for preventive care. Additional products may be available at \$0 cost share, through an exception process, when medically necessary for preventive care.

## How likely is it that I will get an exception?

Generally, Arkansas Blue Cross and Blue Shield Metallic Plans will only approve your request for an exception if the preferred drugs included on the plan's drug list would:

- Not be as effective in treating your condition
- Cause you to have adverse medical effects

## How do I find out if my exception is granted?

**When you ask for a drug list, please send a statement from your prescriber that supports your request.** Then:

- We will make our decision within 72 hours of receipt of the information necessary to make a decision.
- You can ask for an expedited (fast) exception if you or your prescriber believe that your health could be seriously harmed by waiting up to three business days for a decision.
- If your expedited (fast) request is granted, we will give you a decision no later than 24 hours after we get your prescriber's supporting statement.

*Drug Tier column instructions:*

*Plans that provide different levels of cost sharing for drugs depending on their tier must include a column indicating the drug's tier placement.*

*Plans may choose from several methods to indicate the tier placement, including tier numbers from your plan benefit package (e.g., 0/1/2/3), standard tier names from your plan benefit package (e.g., Affordable Care Act (ACA) preventive/generic/preferred brand/other brand), copayment amounts (e.g., \$0/\$10/\$20/\$35), or coinsurance percentages (e.g., 0%/10%/25%). The latter two methods are preferred because they are generally easier for members to understand. If one of the two former methods is used, plans must provide an explanation before the table explaining the copayment amount or coinsurance percentage associated with each tier number or tier name.*

*Plans that have different copayment amounts or coinsurance percentages for retail and mail-service prescriptions may include both retail and mail service amounts within the same column or include separate columns for retail and mail service prescriptions.*

Copayment, copay or coinsurance means the amount a member is required to pay for a prescription in accordance with a Plan, which may be a deductible, a percentage of the prescription price, a fixed amount or other charge, with the balance, if any, paid by a Plan. This document contains references to brand-name prescription drugs that are trademarks or registered trademarks of pharmaceutical manufacturers.

Your privacy is important to us. Our employees are trained regarding the appropriate way to handle your private health information.
